West Suburban Vision Therapy Expands Location and Organizes Youth Art Drive for Senior Citizens

Westmont, Illinois – The Westmont Chamber of Commerce and Tourism Bureau (WCCTB) and the Village of Westmont would like to wish a warm congratulations to West Suburban Vision Therapy on the expansion of their downtown Westmont location at 801 N. Cass Avenue, Suite 203.

West Suburban Vision Therapy, a leading vision therapy practice serving the western suburbs, announces its first annual youth arts and crafts drive to benefit the Cordia Senior Residence Center of Westmont.

Now through August, young artists may submit original works of art to West Suburban Vision Therapy, who will set up the art display at Cordia in September. West Suburban Vision Therapy is offering free art supplies, including canvas, paint, paper and crayons, to interested participants.

The art drive is free and open to the public and formally began at an open house/ribbon cutting ceremony event for West Suburban Vision Therapy's new vision therapy center at 801 N. Cass Ave, Suite 203, Westmont, IL held on July 31, 2021. The vision therapy center opened in August of 2020 and treats patients for a wide range of vision-related conditions outside of basic vision care.

To submit works of art, receive free supplies or for more information, contact West Suburban Vision Therapy at 630-491-4941.

"Having been a Westmont business for over 60 years, being able to contribute to and make a difference in our community is very important to our team," said Dr. David Maze, O.D., FCOVD, FAAO. "We are dedicated to celebrating and improving vision for all people, and hope this art drive engages young artists and brings more color and beauty to the residents at Cordia."

WCCTB President Alison Clemens, Clemens Enterprises, Inc., remarked, "Celebrating and supporting our community is key to continuing to make Westmont a great place to live, work and play".

West Suburban Vision Therapy is a vision therapy practice located in Westmont, IL that offers personalized vision care to patients. The practice works with children and adults who have vision issues that interfere with the ability to read, learn, comprehend and even pay attention. Learn more at www.familyvisionandtherapy.com.
